

AGENTIC AI

Workshop & Hackathon

ESPARTO2026

Google Developer Group on Campus - HITAM

*From learning to building —
explore the power of **Agentic AI**.*

1

Day1

Agentic AI Workshop

- 9 October 2026
- 9:30 AM – 3:00 PM

2

Day2

Agentic AI Hackathon

- 10 October 2026
- Teams of 2-4 members

Date

09-10 October 2026

Venue

Activity Block
2nd and 3rd floor

Organized by

GDGoC HITAM

About the Agentic AI Workshop&Hackathon

A two-day event by GDGoC - HITAM as part of ESPARTO 2026. Learn how AI agents understand goals, reason, use tools and act, then team up and build one that solves a real problem.

The challenge

"Learn how AI agents work, then build one that solves a real-world problem."

Core concept

1

Learn

How agents reason, plan and use tools.

2

Build

Your own working AI agent.

3

Solve

A real-world problem as a team.

4

Demonstrate

Show the solution and its impact.

Key focus areas

AgenticAI fundamentals

AI agents & workflows

Tool usage & task execution

Building practical agents

Problem-solving

Day 1 · Workshop

Individual registration. Interactive and hands-on, with a guest speaker.

Day 2 · Hackathon

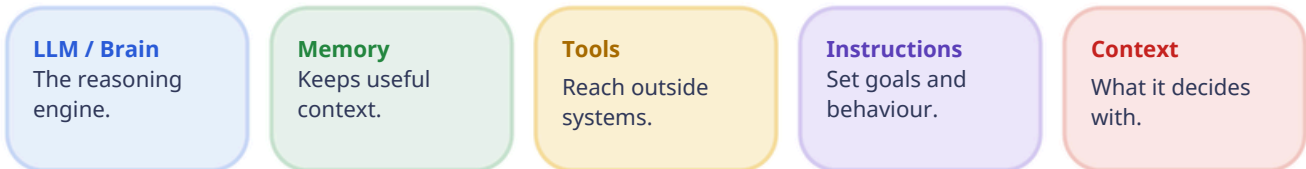

Teams of 2-4 apply Day 1 skills to a given problem statement.

Agent flow & use cases

Typical agent workflow

Anatomy of an AI agent

What you can build

Education

Learning and student assistants

Productivity

Task planning and execution

Research

Gathering, analysis and summaries

Business

Customer and business workflows

Data

Analysis and decision support

Automation

Agents that chain tools and tasks

In the workshop

Build your first agent for a multi-step task, then take the mini challenge: change its instructions, tools and workflow, and watch how it responds.

Event schedule

Learn on Day1, build overnight, and present on Day 2.

1

Day1

9 October 2026

9:30 AM – 3:00 PM

Agentic AI Workshop

Hands-on session with a guest speaker

3:00 – 4:00 PM

Problem statement release

Teams of 2–4 form and start planning

3:00 PM onwards

Development begins

Build continues until 12:00PM on Day 2

2

Day 2

10 October 2026

12:00 PM

Final submission

Solutions are finalised

12:00 – 1:30 PM

Evaluation

Teams demo their solutions

2:30 – 3:30 PM

Results & recognition

Winners announced

Learn

Build

Submit

Demonstrate

Submission & evaluation

The hackathon path

Think

Understand the problem and the user.

Design

Decide what your agent does and knows.

Build

Connect tools and shape the workflow.

Test

Break it, fix it, improve it.

Final submission

- A working Agentic AI solution
- Problem statement and your approach
- The agent, its tools and its workflow
- A live demo of the result

Problem

Impact

Judging criteria

- | | |
|-------------------------|---|
| ● Idea | Is the problem meaningful and well defined? |
| ● Agent | Is Agentic AI meaningfully used? |
| ● Implementation | Does the solution actually work? |
| ● Integration | How well does it use tools, data or external systems? |
| ● Impact | Does it have practical value? |
| ● Demo | Can the team clearly show and explain it? |

Prizes & registration

Hackathon prize pool

₹10,000

1

1st place

₹5,000

2

2nd place

₹3,000

3

3rd place

₹2,000

Scan to Register

₹150 per participant for the workshop

Individual registration; teams of 2-4 form for the hackathon

Good to know

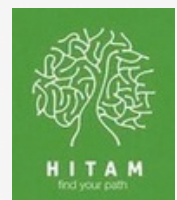

- Venue: Activity Block, 2nd/3rd floor classroom
- One guest speaker / mentor
- Problem statement comes after the workshop

Why join

- Build a working AI agent
- Solve a real problem in a team
- Compete for ₹10,000
